

CT Sinuses Preparation Requirements

- If you are pregnant, it is important to inform the radiographer before you have any scans.

Procedure

- You will be required to lie either on your back or on your stomach the CT table. The table will move so that your head is positioned within the ring of the gantry. An examination usually lasts approximately 15 minutes.
- There will be no pain or discomfort associated with the procedure.

After Procedure

- Normal activities may be continued.
